LIBRARY RECOMMENDATION FORM

Please complete the form below and pass on to your librarian if you would like to recommend one or more Policy Press journals to your library.

I would like to recommend that the library purchases a subscription to the following Policy Press journals:

- Evidence & Policy
- Policy & Politics
- The Journal of Poverty and Social Justice
- Voluntary Sector Review

I am recommending these journals for the following reasons:

- I am a contributor/member of the editorial board to one or more of these journals and require access to the articles published.
- Students need access to the research and content in one or more of these journals. I often recommend articles to my students.
- These journals would be a valuable addition to the library collection.
- My colleagues and I need access to one or more of these journals to advance our research.
- Other (please give details): _____
